

Narrative Writing

Learning at Home

Stage 2

Day 1 – Find some inspiration for a story. If you are stuck for ideas, you can use an idea from the grid attached. Once you have decided on your story idea, plan and organise your ideas using headings a mind map, or the graphic organiser attached.

Day 2 – Work on your introduction. 👉 Don't forget to include details about the characters in your story and the setting where your story takes place.

Day 3 – Work on your series of events. 👉 Don't forget to use language features such as characterisation (description), rhyme, sound effects or dialogue in your story so the reader can picture what is happening in their head as they read.

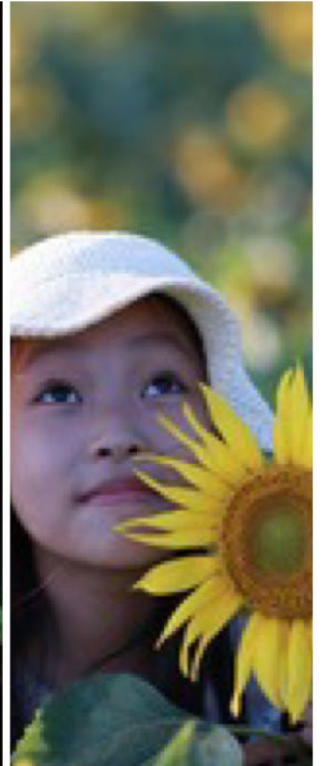

Day 4 – Work on your conclusion. 👉 Don't forget to tell the reader how your story ends.

Day 5 – Revise and edit your work. 👉 Don't forget to check for appropriate structure, spelling, grammar and punctuation.

Editing	
All my sentences start with a capital letter.	
I have the correct punctuation at the end of each sentence. (. ! ?)	
I checked my words for correct spelling.	
Is my handwriting neat and legible?	
Revising	
Will the reader find my work interesting?	
Are my ideas in the correct order? Did I tell things in the order that they happened?	
Did I start my story with an interesting introduction that will make the reader want to read more?	
Will my sentences “paint a picture” in the reader’s mind so that they can visualize exactly what happened in my story?	
Have I used interesting words that the reader will enjoy?	
Have I overused any words or phrases?	
Is my conclusion good? Does it end the story well?	

Story Prompts

You become a character in your favourite video game, and....

At the library, you find a photo in a book.

The last seconds in the clock are ticking, and the ball is in your hands. What happens next?

It started out as just an ordinary day, but then...

Name _____

Date ____/____/____

Planning my Narrative

1. Who are the characters?

Draw and describe your characters.

2. Where is the setting?

Draw and describe the setting.

3. What is the problem?

4. What is the solution?
